## ATLANTA NEWS

### TRACKSIDE TO CLOSE

Trackside Tavern in Decatur, Georgia is scheduled to close it's doors for the final time the end of April '92. The red brick bar has long served as the symbol of the Atlanta acoustic music scene to those not fortunate enough to live there. It's dart boards, wooden booths, and tiny stage will be missed.

The Tavern's manager, Eddie Owen, is reportedly working to open a new bar that will feature local talent and hopefully recapture the friendly atmosphere of the Taverns glory days. We'll keep you posted.

The Tavern itself is scheduled to be re-opened as a sports bar.

### ELLEN JAMES SOCIETY

If you haven't checked out The Ellen James Society's new release "The Survivors Parade" I highly recommend it. It has been released on CD and also as a limited edition (1,000) LP with the covers hand drawn by the band. Each cover is unique.

EJS is scheduled to begin a northeast tour the end of May. If you've never seen them live make it a priority, they are awesome.

### ARTIST SPOTLIGHT - ASHLEY AND MARK

One of my favorite bands to see when I visit Atlanta is the duo of Ashley and Mark. They released a terrific cassette last year, "Covertown", which features 11 songs, all written by them. It features great guitar playing, tight harmonies, and intelligent songwriting from the dark and brooding "Release" to the wild and humorous "Roll Me Up". The album closes with "Covertown", the ultimate anthem for struggling musicians. The Atlanta music scene is bursting at the seams with talent, I think this duo is among the best.

Amy's record label, Daemon Records, which features such artists as Ellen James Society, Kristen Hall, and Gerard McHugh is compiling a mailing list. If you want to be included, write:
