

# amy's songs

beauty to disaster  
 black heart today  
 blender  
 blood and fire  
 careless youth  
 cedar tree  
 chiapas bound  
 clues to you  
 cold as ice  
 cordova  
 cut it out  
 dairy queen  
 dead mans hill  
 dirt and dead ends  
 dont give that girl a gun  
 draw the line  
 everybodys waiting  
 falling star  
 faye tucker  
 free through eternity

give in  
 go  
 go go go  
 heartache for everyone  
 hey kind friend  
 holy city  
 i dont know your name  
 i dont wanna know  
 if you live like that  
 ill be there  
 ill give you my skin  
 johnny rottentale  
 joking  
 jonas and ezeqial  
 just passing time  
 keeper of my heart  
 kid fears  
 laramie  
 late bloom  
 left me a fool

let it ring  
 let me go easy  
 make this house a home  
 measure of me  
 moment of forgiveness  
 money made you mean  
 no way out  
 no way to treat a friend  
 on your honor  
 pennies on the track  
 point hope f o i a  
 pushing the needle too far  
 put it out for good  
 reunion  
 rock and roll heavens gate  
 rodeo  
 running from the cold  
 shame on you  
 sister  
 slow moving sea

sober girl  
 strange fire  
 tether  
 the ballad of squeaky fromme  
 the distance remains the same  
 they wont have me  
 this train revised  
 three county highway  
 touch me fall  
 tried to be true  
 walk away  
 world falls  
 yield  
 you left it up to me
